SUMMARY

2022 proved that the lives of trafficking survivors are precious and the work we do at the Ranch is vitally important. Courtney spent 6 months at the Ranch before deciding that she was not quite ready for the pain of facing her extensive trauma. Shortly after leaving, her life was cut short by a drug overdose. Our family and staff grieved deeply but instead of being broken, it strengthened our resolve to help more women find lasting hope on the other side of trafficking and discover the beautiful life that God has in store for them.

We are dedicated to walking along side these special women every day. Through the good and the bad. Faithful Ranch partners make that possible.
